- Embedded with DiLytics learnings
- Self-service reporting enabled
- Provide insights and foresights
- Ensure a high 'value-to-cost' factor
- Come with rich Pre-built content:
  - Data Pipelines/Packages
  - Dashboards
  - Dashboard Pages
  - Reports
  - Metrics

DiLytics Insight Solutions are a suite of readymade, end-to-end, plug-and-play data analytics solutions branded as 'Insight Solutions'. These are readily deployable solutions containing pre-packaged business metrics, attributes, reports, dashboards, and more. These solutions come with pre-built data objects from source systems, as well as pre-integrated data loads from Oracle EBS, Peoplesoft & JDE, and are adaptable to any other source system.

**Functionality  
Required By  
Customer**

=

The foundation layer is built using commercial off-the-shelf (COTS) platform from Oracle Corporation.

On top of the foundation layer, DiLytics has added its own intellectual property (IP) in the form of data models, pre-built data integration packages or pipelines and pre-built reports and dashboards.

The top most layer is the customization layer where any customer-specific functionality can be added to make DiLytics Insight solution usable in customer's context.
